EDUCATION

Bachelors of Technology in Computer Science and Engineering (CGPA: 7.36)

Aug 2021 – 2025

University Institute of Technology, RGPV

Shivpuri, Madhya Pradesh

Higher Secondary Examination (Percentage: 80.60) *Government Excellence Higher Secondary School, Tikamgarh*

June 2019 –2020

Tikamgarh, Madhya Pradesh

TECHNICAL SKILLS

Languages : C,C++, C-Sharp, JavaScript, React.js, Node.js, Express.js, HTML, CSS, python, Django

Databases: MongoDB, Firebase

Core Subjects : Data Structures and Algorithms, DBMS, Operating System, Networking, OOPs ,SDLC

Dev Tools: **Visual Studio Code**, **Git**, **Github**, BitBucket

PROJECTS

Pandit Booking Website

MERN Stack (React.js, Express.js, Node.js, MongoDB, Tailwind CSS, Razorpay)

GitHub

- Developed a user-friendly and visually appealing **UI/UX** using **React.js** and **Tailwind CSS**, ensuring responsiveness across all devices.
- Integrated Razorpay for secure and seamless online transactions, improving the payment experience.
- Created detailed pandit profiles showcasing availability, specializations, and pricing, enhancing the booking experience.
- Built a robust **admin dashboard** to efficiently manage **users**, **bookings**, and payment records.
- Implemented real-time booking functionality using a scalable Node.js and MongoDB backend, ensuring high
 reliability.

Personal Portfolio Website

Frontend (React.js, Tailwind CSS, JavaScript, Framer Motion)

GitHub

- Designed and developed an elegant, fully responsive portfolio using React.js, Tailwind CSS, and JavaScript.
- Implemented smooth animations and interactive components with Framer Motion for an engaging and dynamic user experience.
- Integrated a contact form with email functionality, allowing recruiters and clients to connect seamlessly.

EXPERIENCE

Doshi Technologies

Web Developer Intern

January-13 - Present

- Developing scalable and efficient software solutions using React.js, Node.js, and MongoDB.
- Collaborating with cross-functional teams to design, develop, and deploy high-performance applications.

Bharat Intern

Full Stack Web Development

August-23 - September-23

- Developed and deployed full-stack solutions using HTML5, CSS, and JavaScript.
- Built functional web applications by integrating modern frontend technologies.

ACHIEVEMENTS

- Achieved 90.80% in 10th grade (MP Board), showcasing strong academic performance.
- Successfully tackled and solved **over 300** complex **Data Structures and Algorithms (DSA)** problems across various competitive programming platforms, strengthening problem-solving abilities.
